

MTH 101 Lab 4: Rankings, Part 1 TURN IN

Section: _____

Name: _____

Focus Questions: What is happiness, and how can one quantify it? In the processes of quantification and ranking, what is gained, and what is lost?

The ultimate goal is to write your own press release (the writing project due on March 18) which ranks the countries by happiness. You should choose your own metrics and your own weights for these metrics - they should reflect your thinking regarding what is important for a person's happiness and how we can measure that.

TA Feedback:

METRIC NAME	Weight	Negative or Positive?	Website used	Relative or Absolute?	How will you refine the metric if absolute?
